

(Verse 1)

Let's ride, let's ride, let's ride, let's ride, yeah

Baby hoppin' let's ride, let's ride, let's ride, let's ride, get high

Don't lie, we live so baby hoppin', let's ride, let's ride

The waves will laugh or cry for now

We live to mess around and get by

Let's ride, let's ride, let's ride, get high

Don't lie, we live, so baby hoppin', let's ride, let's ride

The waves will laugh or cry for now

We live to mess around and

(Verse 2)

Ay, came to this world with a purpose

Crazy life, it's been lookin' like a circus

Give it all up just to break that surface

Break it all down just to make that worth it

Flippin' these bets, swear to God I've been workin'

Swear to God I've been workin'

Yeah, now, I, I

Changin' the game like I cut it with Swiss blades

(Chorus)

Ride this ride, let's ride this ride

Get high, don't lie

We live, so baby, hop in

Let's ride this ride

Do what we will, laugh, cry

For now, we live, mess around

And get by this ride, let's ride this ride

Get high, don't lie

We live, so baby, hop in

Let's ride this ride, let's ride

Do what we will, laugh, cry

For now, we live, mess around

And get high, get high

Smoke weed and get by

(Verse 3)

Rippin' the track up

Over the counter, I'm pullin' the act up

Taste good in my red cup

They hope I stay puffed, she likes it when I play rough

I'm breakin' down walls and it only took eight huffs

Lil' mama a gangster

And she turns around and she gives me that brain bust

(Outro)

Insane lust, insane love

At peak on good drugs

High as heck and we still the plug

We ain't shuttin' down, we just stayin' up

I stayed
